

Meridian™

Capped Wood Composite Decking

Natural. Lasting. True.

Create the perfect escape — a composite deck featuring an authentic wood grain texture that doesn't require all the upkeep of real wood. Meridian provides unbeatable moisture protection with The Solid Core Difference that enables our decking to be installed on the ground, in the ground or underwater by creating an impermeable barrier that also fights damage from rot, insects and other harmful elements. With a TruTexture™ Surface that delivers lower pattern repetition, rich color variegation and added scratch resistance, Meridian deck boards also feature CoolDeck® Technology that reduces heat absorption up to 35%.* Experience the beauty of a sanctuary that is designed to last a lifetime.

**Reduces heat absorption by up to 35% compared to standard capped composites in a similar color.*
